

VISHESH PRAJAPATI

AI Product Manager · Enterprise GenAI Platforms · RAG Systems · LLMOps · Conversational AI · AI Governance

Chicago, IL • vishesh.aipm@gmail.com • +1 312-929-9739 • [Portfolio](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

AI Product Manager with 4+ years of enterprise product management experience, including building GenAI, RAG, and conversational AI platforms at scale. Led product strategy for a Google Cloud Vertex AI and Gemini-powered associate knowledge platform serving 470K+ users across 2,300+ locations, reducing hallucinations 40%, increasing DAU 28%, and improving task efficiency 22%. Experienced in LLMOps, AI governance, RAG evaluation, A/B experimentation, PRDs, OKRs, roadmap ownership, and cross-functional delivery.

CORE COMPETENCIES

- Agentic AI & LLMOps:** Agentic AI, AI agents, multi-agent orchestration, tool calling, function calling, chain-of-thought reasoning, memory persistence, LangChain, LangGraph, LLMOps, MLOps, RAGAS, LLM-as-judge, model routing, token optimization, LangSmith, observability, model evaluation
- RAG, NLP & Conversational AI:** Retrieval-Augmented Generation, hybrid retrieval (BM25 + dense), re-ranking, embeddings, HNSW indexing, Vertex AI Vector Search, Pinecone, Weaviate, FAISS, LlamaIndex, semantic search, NLP, conversational AI, conversation flow design, intent routing, persona modeling
- Cloud, LLMs & Platforms:** Google Cloud (Vertex AI, BigQuery, BigQuery ML, Looker, Cloud Run, Dataflow), Azure OpenAI, AWS (SageMaker, Bedrock), LLMs (Gemini 2.0 Pro, GPT-4o, Claude 3.5 Sonnet), foundation models, system prompts, APIs, Jira, Confluence, Figma
- Product, Analytics & Leadership:** Product strategy, roadmap, PRDs, OKRs, KPIs, North Star metrics, GTM, RICE prioritization, A/B experimentation, feature flags, canary deployments, Agile/Scrum, sprint planning, stakeholder management, cross-functional leadership, user stories, release management, SQL, Python, Mixpanel, Amplitude, Tableau, Power BI
- Responsible AI & Governance:** AI governance, responsible AI, bias detection, explainability, safety guardrails, human-in-the-loop validation, NIST AI RMF 2.0 (awareness), EU AI Act readiness, prompt versioning, model monitoring

PROFESSIONAL EXPERIENCE

The Home Depot | Chicago, IL

Aug 2024 – Present

AI Product Manager

- Owned product strategy, OKRs, PRDs, and roadmap for an enterprise **Generative AI Associate Knowledge Platform** on Google Cloud Vertex AI and Gemini serving **470,000+ store associates across 2,300+ locations** delivering **28% DAU uplift** and improving average task resolution time 22%.
- Designed **agentic AI workflows** with LangChain and Gemini using tool calling, chain-of-thought prompting, and memory persistence enabling autonomous task routing across 3 associate personas (store ops, HR, inventory) and **reducing task completion time 25%**.
- Led product requirements for a multi-stage **RAG pipeline** using hybrid retrieval, embeddings, re-ranking, semantic search, and Vertex AI Vector Search across enterprise knowledge bases **reducing hallucinations 40%** and improving **retrieval precision 30%**.
- Implemented **LLMOps and responsible AI governance practices** with RAGAS-based evaluation, LLM-as-judge scoring, answer faithfulness checks, safety guardrails, prompt versioning, and human-in-the-loop validation improving **AI compliance review adherence to 98%**.
- Owned **A/B experimentation, feature-flag rollout, and model evaluation** across Gemini configurations at 95% confidence improving **resolution accuracy 18%** and **reducing inference cost 30%** through model routing and token optimization.
- Led a 12-person cross-functional team from **0-to-1 platform vision through production launch** managing stakeholder alignment across engineering, data science, UX, security, and legal to deliver AI adoption across 2,300+ store locations.

Accenture | India

Sep 2020 – Aug 2023

Product Manager

- Owned enterprise SaaS product roadmap and platform rollout strategy across 6 global manufacturing clients **95% on-time delivery** across 6 releases with **18% platform adoption uplift**.
- Led process mapping and data-driven analysis across 4 regional manufacturing sites eliminating 15+ workflow bottlenecks and **reducing fulfillment cycle time 28%**.
- Built executive dashboards (Tableau, Power BI) using SQL and Python for cohort and funnel analysis insights informed roadmap prioritization that contributed to **18-point NPS improvement**.
- Managed Jira backlog, PRDs, epics, user stories, and sprint planning across a 300+ item roadmap **reducing clarification cycles 30%** and improving **sprint velocity 25%**.

CERTIFICATIONS

Microsoft AI Product Manager Professional Certificate (Coursera, Feb 2026)

Azure AI Fundamentals (AI-900)

IBM Data Science Professional Certificate

EDUCATION

M.S. in Data Science - DePaul University, Chicago, IL | Machine Learning, NLP, Deep Learning, Data Mining

B.Sc. Computer Application & Information Technology - Ganpat University, India
